

<p>Unit Standard 2847 V5</p> <p>Demonstrate knowledge of apparel production, finishing, and storage systems</p> <p>Level 3, 3 Credits, Open Entry</p>	<p>Trainee: _____</p> <p>Assessor: _____</p>
--	--

Unit Requirements	To be credited with this unit standard you must be able to; <ul style="list-style-type: none"> ➤ demonstrate knowledge of apparel production systems; ➤ and of apparel finishing, packaging, and warehousing.
Special note:	This unit standard is for people entering the apparel industry from other industries or from school.
Notes to Trainee	<p>This assessment document is not a training programme. The training programme for the skills and knowledge required for this unit will be provided by your employer as part of your on-job training, or by programs from training providers. This document is a guide for you, your trainer, and your assessor for the assessment once you have learned and practised the skills involved.</p> <p>The time you will need to spend on training and practice to reach the standard which demonstrates that you are competent in this area will of course depend on other tasks that you may also have which are not part of this unit standard.</p> <div style="display: flex; align-items: center; justify-content: center;">  (Trainee can answer verbally or in writing.) (Trainee to write or assessor to record) </div>
Assessment	<p>Assessment for many of the tasks will be to workroom standards and workplace procedures. You will need to discuss what these standards are with your trainer and/or assessor during your training period so that you are aware of what is required. Where these standards and work instructions are written down, you should collect copies so that you have something to refer to. Your assessor will also refer to these when you are being assessed.</p> <p>In some cases for workplace skills, your Assessor may use someone with specialised knowledge of the process or machine to confirm your skills. This person is called a Verifier.</p> <p>Some assessments require evidence that you demonstrate competence on an ongoing basis. Your assessor may also use a Verifier to confirm that this is the case.</p> <p>You do not need to be assessed for all of the Unit Standard at one time. Assessment can take place as you develop the knowledge and skills. Your assessor will keep a record of progress, and once you have been assessed as competent for all the tasks, you will have completed this unit standard.</p> <p>If any parts of the standard are not met, further evidence of your competence in that task/s will be sought. This is indicated on the Assessment Evidence Guide by the abbreviation FER (Further Evidence Required).</p>

Demonstrate knowledge of apparel production, finishing, and storage systems

Level 3, 3 Credits, Open Entry

Assessor must discuss with Trainee prior to assessment

Before the assessment	<p>This standard can be achieved on any one of a number of garment groups. These are given in the special notes. You should discuss which group you will use with your Trainer and Assessor.</p> <p>If there are any parts of the assessment that you are not clear about, you must ask the assessor before you start the Assessment. You need to agree to the amount and type of evidence to be collected.</p> <p>You must tell the assessor if you have any special needs e.g. hearing or seeing difficulties before doing the assessment tasks. The assessor/verifier will take these special needs into consideration during the assessment.</p>
During the Assessment	<p>The assessment process will consist of questions to assess your knowledge, and observation of you carrying out specific tasks. You would normally answer questions verbally and your assessor will note answers. In some cases you may be able to demonstrate knowledge as a written project. In this case simple diagrams could be used. You should discuss the best way with your assessor.</p> <p>The workplace is often a noisy environment. Your assessor will try and find a quiet place to ask questions so that you are able answer easily. However, in some cases you may feel better able to answer questions at a machine or worksite. You should discuss this with your assessor before the assessment.</p>
After the Assessment	<p>The assessor will tell you if you are 'competent' or 'not yet competent'.</p> <p>'Not yet competent' means that you have not done the tasks, or part of the tasks to the standard that is needed, and you will have to give the assessor more information. If you need to give the assessor more information then you will be clearly told of what it is that you need to do.</p> <p>You have a right to appeal your assessor's decision if you are not happy with the assessor's decision. Your assessor will explain the appeal process.</p> <p>At the end of the assessment you will be asked to sign the assessment to show that you were happy with how the assessment went. Do not sign this section if you do not agree that the assessment was fair.</p> <p>You and your assessor must each sign and keep a copy of the Candidate Check List and the Assessment Record. These are at the back of this Assessment Document.</p> <p>Results of the assessment will be kept by your assessor, passed to your Employer, and sent to the Apparel and Textile ITO who will register competency on the New Zealand Qualifications Framework</p>

Demonstrate knowledge of apparel production, finishing, and storage systems

Level 3, 3 Credits, Open Entry

<p>Special Needs Identified (enter any special needs here)</p>	
	<p>Assessment Process above has been discussed and Trainee understands the process.</p> <p>Trainee _____ (sign)</p> <p>Assessor _____ (sign)</p>

Demonstrate knowledge of apparel production, finishing, and storage systems

Level 3, 3 Credits, Open Entry

Element 1 Demonstrate knowledge of apparel production systems.

Note to Trainee and Assessor:

You need to demonstrate knowledge of a range of systems. These are: make through, progressive bundle, unit, modular work groups, bulk

p c 1.1 Systems are explained in terms of suitability for different products

Products	Suitable systems identified	Competent(C)/ Further Evidence Required (FER) & Sign/Date
trousers		
tee shirts		
fully fashioned knitted garments		
suits		
shirts		
dressess		

p c 1.2 The systems are compared in terms of suitability for different quantities.

Quantities	Systems compared and suitability for quantity determined	C /FER & Sign/Date
1-10		
1-200		
over 200		

Assessor Notes:

Demonstrate knowledge of apparel production, finishing, and storage systems

Level 3, 3 Credits, Open Entry

Element 2. Demonstrate knowledge of apparel finishing, packaging, and warehousing

p c 2.1 Pressing equipment and techniques are identified by industry terminology and described in terms of function and operation

Equipment	Function/reason for use described.	Method of operation described	C /FER & Sign/Date
steam iron			
flat press			
buck			
underpress			
top press			
vacuum press			

p c 2.2 Finishing equipment and packaging materials are described in relation to products in terms of suitability and function

Equipment	Suitability of equipment for use with different products described.	C /FER & Sign/Date
swift attach		
hanger machines		
folders		
vacuum packers		

Demonstrate knowledge of apparel production, finishing, and storage systems

Level 3, 3 Credits, Open Entry

Element 2.2	Finishing equipment and packaging materials are described in relation to products in terms of suitability and function (cont.)	
Materials	Suitability of materials for use with different products described.	C /FER & Sign/Date
boxes		
plastic bags		
hangers		
vacuum bag		
p c 2.3	Warehousing and/or storage methods are compared in terms of suitability for storage of different products	
Warehousing/Storage	Warehousing and Storage factors are compared with regards suitability for the range of products: trousers, tee shirts, fully fashioned knitted garments, suits, shirts, dresses	C /FER & Sign/Date
fixed shelving		
adjustable shelving		
fixed rails		
trolley on rail		
space requirement		
accessibility		
term of storage		

Demonstrate knowledge of apparel production, finishing, and storage systems

Level 3, 3 Credits, Open Entry

CANDIDATE’S CHECKLIST (candidate to retain).

PRE-ASSESSMENT. (When I meet the assessor:)

		Tick
1	I agree to the unit standards/elements to be used for the assessment.	
2	The purpose and process of the assessment is explained to me.	
3	I agree to the amount and type of evidence to be collected.	
4	I agree to the date, time and location for the assessment.	
5	What happens to the assessment result and the appeals system is explained to me	
6	The assessor agrees to keep my Supervisor/Line Manager informed.	
7	The following resources will be available for the assessment::	

Candidate Signature: _____

Assessor Signature: _____

AFTER ASSESSMENT

1	The assessment was carried out as programmed above.	
2	I was informed of the assessment result.	
3	I was given sufficient feedback after the assessment.	
4	I signed the assessment record.	
5	If assessed competent the assessor signed the assessment record for forwarding to the ITO with my fee/s.	
*	If assessed not yet competent the elements to be reassessed were recorded in the Assessor’s Register.	

Candidate Signature: _____

Assessor Signature: _____

Assessor to fill in details below when candidates is assessed competent:

Candidate’s name:

Competent in unit standard number: 2847 V5

Assessors signature : _____ **Date:** _____

Demonstrate knowledge of apparel production, finishing, and storage systems

Level 3, 3 Credits, Open Entry

ASSESSMENT RECORD SHEET

Trainee Details (Trainee to complete)

Name _____ Date of birth: _____
