

<p>Unit Standard 2849 V5</p> <p>Evaluate industrial sewing machine attachments, folders, and guides</p> <p>Level 4, 6 Credits, Open Entry</p>	<p>Trainee: _____</p> <p>Assessor: _____</p>
--	--

Unit Requirements	<p>To be credited with this unit standard you must be able to;</p> <ul style="list-style-type: none"> ➤ demonstrate knowledge of the availability; ➤ and need for attachments, folders; ➤ and guides; ➤ evaluate the effect of their use on company machines; ➤ and products; ➤ and select attachments, folders, and guides.
Special note:	<p>An underpinning knowledge of garment construction, fabrics, and sewing machines is required.</p> <p>The unit standard covers work aids over a range of industrial sewing machines and is for sewing mechanics, supervisors, managers, and industrial engineers.</p> <p>Where attachments, folders, and guides are specified in elements 2 and 3 they refer to those used in the company.</p> <p>Performance of the elements must conform to the Health and Safety in Employment Act 1992.</p> <p><i>Workplace procedures</i> refer to the verbal or documented procedures for performing work activities and include health and safety, operational, environmental, and quality management requirements. They may refer to manuals, manufacturer's specifications, codes of practice, or policy statements.</p>
Notes to Trainee	<p>This assessment document is not a training programme. The training programme for the skills and knowledge required for this unit will be provided by your employer as part of your on-job training, or by programs from training providers. This document is a guide for you, your trainer, and your assessor for the assessment once you have learned and practised the skills involved.</p> <p>The time you will need to spend on training and practice to reach the standard which demonstrates that you are competent in this area will of course depend on other tasks that you may also have which are not part of this unit standard.</p> <div style="display: flex; align-items: center; margin-top: 10px;"> <div style="flex-grow: 1;"> <p>(Trainee can answer verbally or in writing.) (Trainee to write or assessor to record)</p> </div> </div>

Evaluate industrial sewing machine attachments, folders, and guides

Level 4, 6 Credits, Open Entry

Assessment	<p>Assessment for many of the tasks will be to workroom standards and workplace procedures. You will need to discuss what these standards are with your trainer and/or assessor during your training period so that you are aware of what is required. Where these standards and work instructions are written down, you should collect copies so that you have something to refer to. Your assessor will also refer to these when you are being assessed.</p> <p>In some cases for workplace skills, your Assessor may use someone with specialised knowledge of the process or machine to confirm your skills. This person is called a Verifier.</p> <p>Some assessments require evidence that you demonstrate competence on an ongoing basis. Your assessor may also use a Verifier to confirm that this is the case.</p> <p>You do not need to be assessed for all of the Unit Standard at one time. Assessment can take place as you develop the knowledge and skills. Your assessor will keep a record of progress, and once you have been assessed as competent for all the tasks, you will have completed this unit standard.</p> <p>If any parts of the standard are not met, further evidence of your competence in that task/s will be sought. This is indicated on the Assessment Evidence Guide by the abbreviation FER (Further Evidence Required).</p>
-------------------	--

Evaluate industrial sewing machine attachments, folders, and guides

Level 4, 6 Credits, Open Entry

Assessor must discuss with Trainee prior to assessment	
Before the assessment	<p>If there are any parts of the assessment that you are not clear about, you must ask the assessor before you start the Assessment. You need to agree to the amount and type of evidence to be collected.</p> <p>You must tell the assessor if you have any special needs e.g. hearing or seeing difficulties before doing the assessment tasks. The assessor/verifier will take these special needs into consideration during the assessment.</p>
During the Assessment	<p>The assessment process will consist of questions to assess your knowledge, and observation of you carrying out specific tasks. You would normally answer questions verbally and your assessor will note answers. In some cases you may be able to demonstrate knowledge as a written project. In this case simple diagrams could be used. You should discuss the best way with your assessor.</p> <p>The workplace is often a noisy environment. Your assessor will try and find a quiet place to ask questions so that you are able answer easily. However, in some cases you may feel better able to answer questions at a machine or worksite. You should discuss this with your assessor before the assessment.</p>
After the Assessment	<p>The assessor will tell you if you are 'competent' or 'not yet competent'. Not yet competent means that you have not done the tasks, or part of the tasks to the standard that is needed, and you will have to give the assessor more information. If you need to give the assessor more information then you will be clearly told of what it is that you need to do.</p> <p>You have a right to appeal your assessor's decision if you are not happy with the assessor's decision. Your assessor will explain the appeal process.</p> <p>At the end of the assessment you will be asked to sign the assessment to show that you were happy with how the assessment went. Do not sign this section if you do not agree that the assessment was fair.</p> <p>You and your assessor must each sign and keep a copy of the Candidate Check List and the Assessment Record. These are at the back of this Assessment Document.</p> <p>Results of the assessment will be kept by your assessor, passed to your Employer, and sent to the Apparel and Textile ITO who will register competency on the New Zealand Qualifications Framework</p>
Special Needs Identified (enter any special needs here)	
	<p>Assessment Process above has been discussed and Trainee understands the process.</p> <p>Trainee _____ (sign)</p> <p>Assessor _____ (sign)</p>

Evaluate industrial sewing machine attachments, folders, and guides

Level 4, 6 Credits, Open Entry

Element 1. Demonstrate knowledge of the availability and need for attachments, folders, and guides

Note to Trainee:

You could demonstrate your knowledge verbally or in writing as a project. In each case you need to consider cost savings, time savings, material savings, quality, style modification

p c 1.1 Attachments, folders, and guides are described in relation to lockstitch machines

	Appropriate attachments, folders, and guides are described for each purpose and consideration given to factors in the range listed above.	Competent(C)/ Further Evidence Required (FER) & Sign/Date
hemming		
binding		
elasticating		
profile stitching		
gathering		
piping		

Evaluate industrial sewing machine attachments, folders, and guides

Level 4, 6 Credits, Open Entry

Element 1. Demonstrate knowledge of the availability and need for attachments, folders, and guides (cont.)

p c 1.2	Attachments, folders, and guides are described in relation to overlock machines	
	Appropriate attachments, folders, and guides are described for each purpose and consideration given to factors in the range listed above.	C /FER & Sign/Date
elasticating		
gathering		
piping		
taping		

Assessor Notes:

CANDIDATE’S CHECKLIST (candidate to retain).

PRE-ASSESSMENT. (When I meet the assessor:)

		Tick
1	I agree to the unit standards/elements to be used for the assessment.	
2	The purpose and process of the assessment is explained to me.	
3	I agree to the amount and type of evidence to be collected.	
4	I agree to the date, time and location for the assessment.	
5	What happens to the assessment result and the appeals system is explained to me	
6	The assessor agrees to keep my Supervisor/Line Manager informed.	
7	The following resources will be available for the assessment::	

Candidate Signature: _____

Assessor Signature: _____

AFTER ASSESSMENT

1	The assessment was carried out as programmed above.	
2	I was informed of the assessment result.	
3	I was given sufficient feedback after the assessment.	
4	I signed the assessment record.	
5	If assessed competent the assessor signed the assessment record for forwarding to the ITO with my fee/s.	
*	If assessed not yet competent the elements to be reassessed were recorded in the Assessor’s Register.	

Candidate Signature: _____

Assessor Signature: _____

Assessor to fill in details below when candidates is assessed competent:

Candidate’s name:

Competent in unit standard number: 2849 V5

Assessors signature : _____ Date: _____
