| <p><b>Unit Standard 5293 V5</b></p> <p><b>Demonstrate knowledge of work study techniques for the clothing industry</b></p> <p><b>Level 3, 6 Credits, Open Entry</b></p> | <p><b>Trainee:</b> _____</p> <p><b>Assessor:</b> _____</p> |
|---|--|

|                          |  |
|--------------------------|--|
| <b>Unit Requirements</b> | <p>To be credited with this unit standard you must be able to;</p> <ul style="list-style-type: none"> <li>➤ describe the application of the method study procedure;</li> <li>➤ and calculate productivity;</li> <li>➤ standard times;</li> <li>➤ and performances.</li> </ul>  |
| <b>Special note:</b>     | None   |
| <b>Notes to Trainee</b>  | <p>This assessment document is not a training programme. The training programme for the skills and knowledge required for this unit will be provided by your employer as part of your on-job training, or by programs from training providers. This document is a guide for you, your trainer, and your assessor for the assessment once you have learned and practised the skills involved.</p> <p>The time you will need to spend on training and practice to reach the standard which demonstrates that you are competent in this area will of course depend on other tasks that you may also have which are not part of this unit standard.</p> <div style="display: flex; align-items: center;">  <div style="display: flex; justify-content: space-between; width: 100%;"> <span>(Trainee can answer verbally or in writing.)</span> <span>(Trainee to write or assessor to record)</span> </div> </div>  |
| <b>Assessment</b>        | <p>Assessment for many of the tasks will be to workroom standards and workplace procedures. You will need to discuss what these standards are with your trainer and/or assessor during your training period so that you are aware of what is required. Where these standards and work instructions are written down, you should collect copies so that you have something to refer to. Your assessor will also refer to these when you are being assessed.</p> <p>In some cases for workplace skills, your Assessor may use someone with specialised knowledge of the process or machine to confirm your skills. This person is called a <b>Verifier</b>.</p> <p>Some assessments require evidence that you demonstrate competence on an ongoing basis. Your assessor may also use a Verifier to confirm that this is the case.</p> <p>You do not need to be assessed for all of the Unit Standard at one time. Assessment can take place as you develop the knowledge and skills. Your assessor will keep a record of progress, and once you have been assessed as competent for all the tasks, you will have completed this unit standard.</p> <p>If any parts of the standard are not met, further evidence of your competence in that task/s will be sought. This is indicated on the <b>Assessment Evidence Guide</b> by the abbreviation <b>FER (Further Evidence Required)</b>.</p> |

**Demonstrate knowledge of work study techniques for the clothing industry**

Level 3, 6 Credits, Open Entry

**Assessor must discuss with Trainee prior to assessment**

|   |   |
|---|---|
| <b>Before the assessment</b>                                      | <p>If there are any parts of the assessment that you are not clear about, you must ask the assessor before you start the Assessment. You need to agree to the amount and type of evidence to be collected.</p> <p>You must tell the assessor if you have any special needs e.g. hearing or seeing difficulties before doing the assessment tasks. The assessor/verifier will take these special needs into consideration during the assessment.</p>   |
| <b>During the Assessment</b>                                      | <p>The assessment process will consist of questions to assess your knowledge, and observation of you carrying out specific tasks. You would normally answer questions verbally and your assessor will note answers. In some cases you may be able to demonstrate knowledge as a written project. In this case simple diagrams could be used. You should discuss the best way with your assessor.</p> <p>The workplace is often a noisy environment. Your assessor will try and find a quiet place to ask questions so that you are able answer easily. However, in some cases you may feel better able to answer questions at a machine or worksite. You should discuss this with your assessor before the assessment.</p>  |
| <b>After the Assessment</b>                                       | <p>The assessor will tell you if you are '<b>competent</b>' or '<b>not yet competent</b>'. <b>Not yet competent</b> means that you have not done the tasks, or part of the tasks to the standard that is needed, and you will have to give the assessor more information. If you need to give the assessor more information then you will be clearly told of what it is that you need to do.</p> <p>You have a right to <b>appeal</b> your assessor's decision if you are not happy with the assessor's decision. Your assessor will explain the appeal process.</p> <p>At the end of the assessment you will be asked to sign the assessment to show that you were happy with how the assessment went. Do not sign this section if you do not agree that the assessment was fair.</p> <p>You and your assessor must each sign and <b>keep a copy</b> of the Candidate Check List and the Assessment Record. These are at the back of this Assessment Document.</p> <p>Results of the assessment will be kept by your assessor, passed to your Employer, and sent to the Apparel and Textile ITO who will register competency on the New Zealand Qualifications Framework</p> |

## Demonstrate knowledge of work study techniques for the clothing industry

Level 3, 6 Credits, Open Entry

### Element 1. Describe the application of the method study procedure (cont.)

**p c 1.3** The concept of standard minutes is explained in relation to job timing and work measurement

| Factors   | How do standard minutes relate to job timing and work measurement. Consider the given factors | C /FER & Sign/Date |
|---|---|--------------------|
| scope and limitations of contingency allowances |   |                    |
| application and range of rest allowances        |   |                    |
| methods of timing labour                        |   |                    |

**Assessor Notes:**

### Element 2. Calculate productivity, standard times, and performances

|                |  | Observed<br> | C /FER & Sign/Date |
|----------------|--|---|--------------------|
| <b>p c 2.1</b> | <b>Productivity and production are defined and calculated against the standard measurement</b> |   |                    |
|                | increases and decreases in productivity  |   |                    |
|                | labour input   |   |                    |
|                | material usage   |   |                    |
|                | wastage  |   |                    |
|                | unit costings  |   |                    |
|                | inputs and outputs   |   |                    |
| <b>p c 2.2</b> | <b>Basic minute values are calculated for given element times and ratings</b>                  |   |                    |
|                | rest and contingency allowances  |   |                    |
|                | performance and efficiency   |   |                    |
|                | down time  |   |                    |
